

Environmental Policy

Weetwood Services Ltd (the 'Organisation') recognises the importance of environmental protection and is committed to conducting its business responsibly and in compliance with all legal requirements including aspects specific to the planning, development, environment, & other related consultancy services including: Flood Risk, Environmental Impact, Water Framework Directive and Utilities Assessments; Drainage Design; River Restoration Studies; Sequential, Exception & Justification Testing; Expert Witness & Appeal Representation and in a way that protects and enhances the environment.

Our way of doing business is founded on a number of core values, which include:

- The delivery of sustainable solutions which give due regard to social, economic and environmental considerations
- The highest possible business ethics

These core values underpin our environmental policy which, internally seeks to minimise the effect of our operations on the environment and, externally seeks to see this approach replicated by those firms with which we do business.

It is the Organisation's objective to carry out all measures reasonably practicable to meet, exceed or develop all necessary or desirable requirements and to continually improve environmental performance through the implementation of the following:

- a) Assess and regularly re-assess the environmental effects of the Organisation's activities
- b) Training of employees in environmental issues
- c) Minimise the production of waste
- d) Minimise material wastage
- e) Minimise energy wastage
- f) Promote the use of recyclable and renewable materials
- g) Reduce and/or limit the production of pollutants to water, land and air

In all our work we will always make a serious and conscious effort to offer solutions which have minimum environmental impact and support the concept of sustainability.

Internally our activities are geared to:

- Meeting and, where appropriate, exceeding legislative requirements
- Continuous improvement through internal audit and management reviews
- Minimising business travel and using public transport where practicable
- Minimising the amount of waste generated and recycling wherever possible
- Making full use of information and communications technology

Externally we aim to:

- Enter into partnerships to share best environmental practices
- Influence other parties to improve their own environmental performance
- Learn from other parties and change our way of working if appropriate

In operating in accordance with the above we will develop a business focused on providing sustainable solutions for our clients for the benefit of generations to come.

This Policy is communicated to all employees, suppliers and sub-contractors and is made available to the public.
